5. Correspondence: None.
6. Staff Report: Mrs. MacNeill led the members on a tour of the building and discussed possible building plans for the upcoming reorganization.
7. Committee Reports
   a. Building
      i. Storyhour room: The crack has been repaired but moisture continues to come in at the base of the wall, which is also the joint of the older portion of the building and the most recent addition.
      ii. Library Reorganization: Approval was granted for MKM to present a proposal for library redesign and modification of space and functionality, with fees and contingencies not to exceed $24,500. This was approved following a motion by Minniear, seconded by Brown, and a 5-0 vote.
      iii. Southern Wells Survey: Currently, we have 143 responses to the survey about adding a branch in the southern part of our county. 93% are in favor. However, about half of the responses are students. It was decided that there is simply not enough information on support in the south part of the county to go forward with any firm plans at this time. Also, Southern Wells is in a Strategic Planning phase as well and we don’t know how the library should be involved there. No action was recommended.
      iv. Ossian Bathrooms: No action will be taken on replacing the bathrooms until next year when more LIRF or possibly bond funds may be available for the project.

   b. Pest Control Contract: Bids were received and upon recommendation it was decided to go with Orkin. It was felt that the quality of service from APP wasn’t the most desirable. Johnson made the motion, was seconded by Minniear, and the motion carried with a 5-0 vote.
