Attn: Sarah MacNeill
Re: Server Room Mini Split

Thank you for the opportunity to quote this project.

This price is for adding a 12,000 BTU, Fujitsu Mini-split for server room.

This price includes:

- Running new lineset from server room to upstairs boiler room on the East side of building.
- Run drain line to floor drain in mechanical room behind server room.
- Run electrical from new evaporator in server room to condenser upstairs.
- Install new condenser in drain pan for cleaning and condensation.
- Terminate high voltage wiring in electrical panel.
- Install new disconnect for condenser.
- Install new disconnect whip to condenser.
- Pressurize lineset with nitrogen and check for leaks.
- Evacuate system down to 500 microns.
- Add any additional refrigerant needed after installation.
- Perform start-up and check operation on new equipment.

All materials, labor and sales tax to complete the job.

Bid Amount:	\$5,575.00
Not To Exceed Amount:	
Estimate Only:
