Re: Pest Control Quote

Stephanie,

I would like to thank you for this opportunity to provide you with a quote for pest control for this facility.

We, at American Pest Professionals, strive to deliver environmentally sound pest management, 365 days a year. We can supply you with the service and knowledge to take care of all of your pest control needs.

General Pest Control Maintenance-

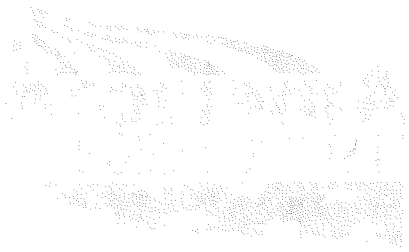

Service includes: Baiting, Monitoring, and Spraying for common pests, including ants, spiders, roaches, mice, and occasional invaders.

***Does not include wood destroying pests (ie termites, carpenter ants, etc.), fleas, wild animals, bedbugs, and what is not agreed upon at time of signing.

If such are found, we can treat these issues at a discounted rate.

Proposed Plan-

Use an Integrated Pest Management (IPM) program to only use small amounts of pesticides along with monitors and elimination efforts to reduce pest activity. Our plan is to chemically treat the entry ways, bathrooms, and mechanical/janitorial rooms, exterior perimeter, monitor the staff break room, offices, and kitchenette each month. We will inspect and treat where necessary the rest of the facility, and take care of issues that arise given from your staff.

Cost per Month-

The monthly service charge would be: **\$56.00**

If any equipment is needed, ie exterior rodent bait stations, interior enclosed stations, etc., the cost of the equipment can be added to the monthly service charge.

***There would be no added trip or service charge for retreats or return visits between your regular service schedules. There will be no initial setup charge to begin your service.

***Our service consists of **free** inspections for your facility at any time.

If you have any questions, please do not hesitate to contact us at any time. Thank you again for this opportunity.

Respectfully Submitted,
